

Hypnotherapy for Cancer : Beyond the Swinging Pendulum

Join us for this unique lecture to learn how hypnotherapy can help to reduce stress levels when living with cancer. Our very engaging speaker will clear up common misconceptions about hypnosis and provide information on how hypnosis can help cancer survivors boost their immune system, increase energy and manage treatment side effects.

Tuesday, September 30th, 2014, 6:30-8:00 pm

MultiCare Regional Cancer Center—Gig Harbor
